#### Re-arrangement

Comparative figures have been rearranged wherever considered necessary to ensure better comparability with the current period without causing any impact on the profit and value of assets and liability as reported in the financial statement.

# 6.00 Significant accounting policies

Accounting policies set out below have been applied consistently to all periods presented in these financial statements. Comparative information has been rearranged wherever considered necessary to conform to the current period's presentation.

#### 6.01 Current versus non-current classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

An asset is current when it is:

- i. expected to be realized or intended to be sold or consumed in normal operating cycle,  $% \left( 1\right) =\left( 1\right) \left( 1\right)$
- ii. held primarily for the purpose of trading,
- iii. expected to be realized within twelve months after the reporting period, or
- iv. cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

- i. expected to be settled in normal operating cycle,
- ii. held primarily for the purpose of trading,
- iii. due to be settled within twelve months after the reporting period, or  $% \left\{ 1,2,\ldots,n\right\}$
- iv. there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax liabilities are classified as non-current liabilities.

#### 6.02 Offsetting

The Company reports separately both assets and liabilities, and income and expenses, unless required by an applicable accounting standard or offsetting reflects the substance of the transaction and such affsetting is permitted by applicable accounting standard.

#### 6.03 Property, plant and equipment

#### 6.03.1 Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises its purchase price, import duties and non-refundable taxes, after deducting trade discount and rebates, and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the intended manner. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

When major parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

# 6.03.2 Subsequent costs

The cost of replacing or upgradation of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the item will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of the day to day servicing of property, plant and equipment are recognized in profit or loss as incurred.

#### 6.03.3 Depreciation

No depreciation is charged on land and land developments as the land has unlimited useful life.

Depreciation on other items of property, plant and equipment is recognized on a diminishing balance method over the estimated useful life of each item of property, plant and equipment.

Depreciation method, useful lives and residual values are reviewed at each period-end and adjusted if appropriate. Depreciation has been charged on addition of assets during the year when the assets available for use. The depreciation rate based on estimated useful lives of the items of property, plant and equipment for the current and comparative periods are as follows:

Particulars	31-Mar-20	30-Jun-19

# 6.04 Intangible assets

# 6.04.1 Recognition and measurement

Intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and accumulated impairment loss, if any. Intangible assets are recognized when all the conditions for recognition as per IAS 38 Intangible Assets are met. The cost of an intangible asset comprises its purchase price, import duties and non-refundable taxes and any directly attributable cost of preparing the asset for its intended use.

# 6.04.2 Subsequent costs

Subsequent costs are capitalized only when they increase the future economic benefits embodied in the specific asset to which they relate. All other costs are recognized in profit or loss as incurred.

#### 6.04.3 Amortization

Amortization is recognized in profit or loss on a reducing method basis of intangible assets. The amortization rate based on estimated useful lives are as follows:

31-Mar-20	30-Jun-19
Rate	Rate
20%	20%
20%	20%

Software and applications Website

Amortization methods, useful lives and residual values are reviewed at each period-end and adjusted, if appropriate.

#### 6.05 Advances, deposits and prepayments

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deduction, adjustment or charges to other account heads such as property, plant and equipment, inventory or expenses.

Deposits are measured at payment value.

Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to profit and loss account.

#### 6.06 Financial instruments

Financial assets and liabilities are recognized on the statement of financial position when the Company has become a party to a contractual provision of the instrument.

#### 6.07 Trade and other receivables

Trade and other receivables are stated at their nominal value and considered good. No provision has been made for doubtful debt and no amount was written off as bad.

#### 6.08 Accrued income

Accrued income includes incomes which have been earned but not received during the reporting period.

#### 6.09 Inventories

Inventories comprise of raw materials (yarn), raw materials (finished fabrics), raw materials (accessories), needle and spare parts, work-in-process, and finished goods. Inventories are stated at the lower of cost and net realizable value. The cost of inventories includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in process, cost includes an appropriate share of production overheads based on normal operation capacity. Cost of inventories is determined by using the weighted average cost formula. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

#### 6.10 Cash and cash equivalents

Cash and cash equivalents include cash in hand, cash at banks, and other bank deposits free of encumbrance and having maturity dates of three months or less from respective dates of deposit.

#### 6.11 Share capital

Ordinary shares are classified as equity.

#### 6.12 Loans

Interest bearing bank loans and overdrafts are recorded at the proceeds received net of direct issue costs. Finance charges are accounted for on an accrual basis.

# 6.13 Trade and other payables

Trade and other payables are stated at their nominal value.

#### 6.14 Accruals, provisions and contingencies

#### (a) Accruals

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amounts due to employees. Accruals are reported as part of trade and other payables.

#### (b) Provisions

A provision is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the reporting date. Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

#### (c) Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.
